PROFESSIONAL SUMMARY

Full-Stack & Al Developer with expertise in React, Next.js, JavaScript/TypeScript, and Al technologies (LLM, LangChain, chatbots). Proficient in building scalable applications with Supabase, Python, and cloud services. Passionate about integrating Al solutions into modern web and mobile platforms. Certified Microsoft Professional (MCP) with a strong foundation in both frontend and backend development.

Here are my skills set:

Frontend
- React, Next.js, Vue.js, Angular, JavaScript, TypeScript, HTML, CSS, Tailwind CSS

Backend & DevOps
- Node.js, Express.js, Django, Supabase, Firebase, Azure DevOps

AI & ML
- LLM, Langchain, chatbot, MCP

Database
- MySQL, MongoDB, NoSQL, PostgreSQL

EXPERIENCE

SENIOR FULL-STACK & AI DEVELOPER, NEXUSAI SOLUTIONS   02/2021 – Present
                                                                                                                                    REMOTE
- Spearheaded the development of an Al-powered customer support chatbot using Next.js, LangChain, and OpenAI GPT-, reducing response times by 0% for a fintech client.
- Architected a Supabase-backed real-time analytics dashboard for a healthcare startup, processing 10K+ data points/sec with 50% lower latency than Firebase.
- Deployed scalable Python/Flask microservices on Azure (MCP-certified) to automate document processing, cutting manual labor costs by $15K annually.

FULL STACK DEVELOPER, VERTEX TECHNOLOGIES   10/2017 – 01/2021
                                                                                                                  MANILA, PH
- Built a with dynamic Al recommendations for 50+ SME clients.
- Created and updated Moodle course materials, including modules, quizzes, and assignments, based on instructional design principles and accessibility standards.
- Conducted Moodle training sessions for faculty and staff, and provided technical support for system users.
- Maintained and updated course content and gradebooks for more than 1,000 students and 50 faculty members.
- Worked closely with IT staff to ensure system security, data privacy, and backup and disaster recovery procedures.

FRONTEND ENGINEER, *CODECRAFT STUDIOS*   07/2014 – 09/2017
                                                                     CEBU, PH

- Modernized legacy jQuery systems into React SPAs for 3+ logistics clients, reducing page load times from 5s to 1.2s.
- Developed a Python-based CMS scraper to auto-generate SEO reports, saving 15+ hours/week for marketing teams.
- Collaborated on an AR prototype using Three.js for a real estate client, boosting property engagement by 30%.
